But Brunswicks Take Three of the Games.

Standing of the Teams.

Although the Elks bowling team succeeded in winning the total number of points in their league series of five games against the Brunswick team at the Elks allevs last evening, the lower Main street crowd took three out of the five games, and now tie with the pronghorned bovs for second place in the championship race. The real struggle of the evening came in the fifth game, which was remarkably close until th. Iast frame was rolled, when it was seen that the Brunswick aggregation came out a winner by only twelve points. All the contestants with the exception of Smith fell down in this game and rolled exceedingly low scores. Lynn for the Elks, with a total score of \$13\$, did the best work of the evening and Talamantes, his team mate, finished in second place, with a total of \$92\$; these two being the only ones to get over the \$50 mark. The following were the scores and averages:

Prayers For Gonzales.

This morning when the city schools assembled and prayers were said, they included an appeal to God for the recovery of Mr. Gonzales. At the South Carolina college prayers were offered for the recovery of the stricken editor, and even in the senate chamber, where for the recovery of the stricken editor, and even in the senate chamber, where Lieutenant Governor Tillman had presided shortly before the shooting, the chaplain prayed that the Almighty would save the life of Mr. Gonzales. While there is a great deal of feeling over the affair, it can be stated with positiveness that there is absolutely no thought of violence against Mr. Tillman on the part of Mr. Gonzales' friends. All sensational reports of threats against Tillman's life in the event that the stricken editor should die are absolutely baseless, as it is the die are absolutely baseless, as it is th wish of Mr. Gonzales and his closest friends that the matter should be left for the courts to settle.

Loss of Timbers.

The Southern Pacific company has been losing a number of valuable timbers intended for use on the trestie and has enlisted the aid of the officers of the city in recewering them. Officer Pender and Special Officer Fitzpatrick recently returned from a trip down to the lake shore, whither they went to locate a lot of the stranded timbers and to secure the names of farmers who had been converting the valuable piling to their own use. The timbers were blown away from the line and had drifted along the shore, driven by heavy winds. The piling is very valuable and about \$3.000 worth has been lost. It is understood the company will not cause any trouble to any who appropriated the sticks in case the same are returned to the shore.
